Re: Residential garbage collection, disposal, and billing

Dear Sir or Madam:

The Forrest County Board of Supervisors is pleased to introduce Waste Pro as the County's new contractor for residential garbage collection, disposal, and billing. Per the enclosed flier, Waste Pro will begin serving all residential garbage generators outside of the municipalities this Friday, February 1, at a significantly reduced rate of \$11.65 per month. The Board of Supervisors and Waste Pro are committed to making the transition as smooth as possible, and you are encouraged to contact Waste Pro at 601-264-7888 with any questions or concerns you may have that are not addressed by the enclosed flier.

Please be advised that if you have not previously participated in the County's residential garbage program, Mississippi Code Section 19-5-17 provides that "all persons in the county generating garbage shall utilize [the] garbage collection and disposal system" unless exempted on a class-wide basis or unless the generator files a non-election form, neither of which exception is currently authorized by the Board of Supervisors.

Finally, please remember that paint, chemicals, electronics, and other potentially hazardous materials should not be deposited curbside with your household garbage for pickup by Waste Pro but can be properly disposed of at the County's annual Right Way to Throw Away Day.

Thank you for your time, attention, and cooperation.

Sincerely,

David Hogan
Board President

Enclosure.
